

SCHOOL OF
**COMPUTING &
DATA SCIENCE**
The University of Hong Kong

Course Information

COMP7404 Computational Intelligence and Machine Learning
Prof. Kenneth Wong

Teaching Team

	Instructor	Tutor	Tutor
Name:	Prof. Kenneth Wong	Neel Gautam Bagai	Georgy Valencio Siswanta
Office:	CB323	HW310A	HW310A
Email:	kykwong@cs.hku.hk	ngbags@hku.hk	georgyss@hku.hk

Course Schedule

Session	Dates	Time	Venue
Session 1	2 Sep 2026 (Wed)	10:00am – 1:00pm	CBA
Session 2	9 Sep 2026 (Wed)	10:00am – 1:00pm	CBA
Session 3	16 Sep 2026 (Wed)	10:00am – 1:00pm	CBA
Session 4	23 Sep 2026 (Wed)	10:00am – 1:00pm	CBA
Session 5	30 Sep 2026 (Wed)	10:00am – 1:00pm	CBA
Session 6	7 Oct 2026 (Wed)	10:00am – 1:00pm	CBA
Session 7	21 Oct 2026 (Wed)	10:00am – 1:00pm	CBA
Session 8	28 Oct 2026 (Wed)	10:00am – 1:00pm	CBA
Session 9	4 Nov 2026 (Wed)	10:00am – 1:00pm	CBA
Session 10	11 Nov 2026 (Wed)	10:00am – 1:00pm	CBA

Resources

➤ Reference books

- Artificial Intelligence: A Modern Approach (4th Edition)
by Stuart Russell & Peter Norvig
- Python Machine Learning (3rd Edition)
by Sebastian Raschka & Vahid Mirjalili

➤ Lecture Notes

- Available on the course Moodle page

Prior Knowledge Expected

- Data Structures and Algorithms
- Probability
- Linear Algebra
- Calculus
- Python Programming

Topics To Be Covered

- Uninformed and Informed Search
- Local Search and Constraint Satisfaction Problems
- Adversarial Search (Minimax, Expectimax)
- Markov Decision Process
- Reinforcement Learning
- Supervised Learning (Perceptron, Adaline, Logistic Regression, Support Vector Machines, Decision Trees, Random Forests)
- Unsupervised Learning (K-Nearest Neighbors)
- Philosophy of AI

Assessments

Type	Description	Weight
Group Project	NeurIPS Research Showcase	20%
Assignment 1	Search	8%
Assignment 2	Adversarial Search	8%
Assignment 3	Reinforcement Learning	8%
Assignment 4	Fundamental Machine Learning	6%
Final Exam	Closed Book Written Examination	50%

Late Submission Policy

- Extensions for assignments and project are generally not granted
- Assignments and project cannot be turned in late
 - Late submissions receive **0 marks**
- Waiver may be applied for by submitting a dated sick leave certificate before the deadline

Plagiarism

- Any of the following constitutes an act of plagiarism
 - Submitting the work of another student as your own, or asking someone else to do your assignment
 - Direct copying
 - Studying someone else's work and then rewriting it as your own
 - Using a substantial part of other's work in your program
 - **Providing your assignment as the source for any of the above actions**
- Note, here “someone else's work” includes work produced by **GenAI tools!**

Ethics

- You must acknowledge all collaborators and sources consulted (including GenAI tools)
- All code submitted must be your own original work
 - GenAI tools may **NOT** be used for assignments
- Plagiarism detection software will be employed
- Penalties range from **0 marks** to expulsion for serious or repeated offenses

Where To Find Information and Seek Help

- All the lecture notes and assignment/project specifications can be downloaded from the course Moodle page
- Important information will be posted in the news and announcements (forum)
- If you have questions about course materials, please post your questions in the general discussion forum
- If you have questions about assignments/project, please post your questions in the discussion forum for that specific assignment/project
- You are always welcomed to talk to your lecturer and tutors about any problems you encountered in this course
